YOUR ONE-STOP SHOP FOR DOMESTICALLY PRODUCED CHARCUTERIE

CURED, NEVER COOKED

Only the best may carry the Charcuterie Artisans badge. That's why our salami is slow aged in our own facilities using traditional recipes.

PROSCIUTTO'S GOLD STANDARD

Two Prosciutto items lead the category and we make both. Creminelli's 2oz Prosciutto (p. 6) leads in units while Del Duca's 6oz Prosciutto (p. 10) leads in dollars.

948K FT² OF DOMESTIC PRODUCTION

Our cutting-edge facilities in Rhode Island and Utah allow us to keep all aspects of production in-house while offering shorter lead times, predictable deliveries, and unmatched food safety.

COMPLETE CHARCUTERIE SOLUTIONS

Charcuterie Artisans is the go-to supplier for the nation's leading private label and co-manufacturing programs.

We source conventional, nitrate free, ABF, and humanely-raised pork.

Comprehensive salumi training led by our product experts is offered at no cost and our insights team leverages custom built data to craft shelf sets which maximize category value.

ARTISAN TIP

GAS FLUSH VS VAC PACK:

Vacuum packaging removes air from the pack before sealing, allowing for longer shelf life and more versatile merchandising.

Gas Flush packaging replaces the ambient oxygen with carbon dioxide and nitrogen, for an appealing look without compromising flavor or shelf life.

ENRICHING LIVES
THROUGH CHARCUTERIE

At Charcuterie Artisans, we're not just passionate about our products; we're passionate about your satisfaction. Whether it's hosting a casual gathering or a lavish affair, our carefully curated portfolio has something to suit every taste and occasion. And with our private-label and co-manufacturing services, we can help you leave a lasting impression on your guests or customers.

We take pride in our heritage and craftsmanship, blending old-world traditions with state-of-the-art capabilities to ensure unparalleled quality and flavor in every bite. With USDA certification across our facilities in Rhode Island and Utah, you can have full confidence in the integrity of our production process. With nearly 1 million square feet of domestic production space and over 50 million pounds of capacity, we're here to meet your needs, no matter how big or small.
